PROJECTS

Wanderlust (Full Stack Travel Website)

December 2025 - January 2026

- Designed and developed a full-stack travel web application using the MVC (Model-View-Controller) architecture to ensure clean code structure and scalability.
- Built responsive and visually appealing front-end interfaces using HTML, CSS, JavaScript, and Bootstrap, providing an optimized user experience across devices.
- Developed RESTful APIs with Express.js and MongoDB to support CRUD operations for travel listings, reviews, and user profiles.
- Organized backend logic into controllers, database schemas into models, and UI templates into views, improving maintainability and ease of future enhancements.

Portfolio Website (Frontend Website)

May 2026 - June 2026

- Designed and developed a responsive portfolio website to showcase projects, skills, and achievements.
- Created modern and user-friendly interfaces using HTML, CSS, JavaScript, React.js and Bootstrap.
- Implemented interactive sections including project gallery, skills, education, and contact information.
- Optimized website performance and ensured compatibility across multiple devices and screen sizes.
